

Are you ready to
decorate your home or
office?

We invite you to set the
mood by featuring original art
in your design. A single
piece of art can create the
illusion of space in a small
room or make a large room
more intimate and inviting. A
stunning group of works in
an entrance says that art
occupies an important place
in your life.

How to Purchase Art:

- **Before you buy, know what you like.**

Visit the **Goleta Valley Art Association**
exhibits to see a great variety of art.
There is something for everybody.

- **Stick to your price range.**

Do not let your eyes become larger than
your budget. With no middle person, at
Goleta Valley Art Association shows
the price is right.

- **Do not buy art for color alone.**

Houses come and go, but art lasts a
lifetime. Find that perfect piece but do
not "match it" with furniture of the same
color. Instead of filling that blank wall
with "something in green," fill it with a
piece of art that has real value. **Goleta
Valley Art Association's** emerging
artists provide you opportunities for
appreciation.

- **Have a theme.**

Consider developing "themes" for each
room. This turns your house into a series
of unique visiting spaces. **Goleta Valley
Art Association** shows provide a wide
variety of work that allow you to become
a "collector."

the
**GOLETA VALLEY
ART ASSOCIATION**

Reasonably Priced!

Of course, prices vary among artists. You will find the work at **Goleta Valley Art Association** shows inexpensive because there is no middle person between you and the artist. Also, many works are by emerging artists with extraordinary talents. By purchasing their work now you may be making a wise investment for the future.

If your budget is tight and you see a work that you like, call the artist to ask if something is available that meets your needs. Contacting the artist makes art more personal. It also gives you the opportunity to see additional work by the same artist. Artists' phone numbers and prices are posted at every **Goleta Valley Art Association** show.

GOLETA SLEW PETER WORSLEY

It's the Best!

Each of the participating artists is accepted into the **Goleta Valley Art Association** only after a professional jurying of their work. Recognized art professionals also select the works displayed at the monthly exhibits. **Goleta Valley Art Association** is unique in that members receive feedback on their art work after each show. The juror returns and publicly offers a critique at the end of the show. You are invited to attend and learn along with the artists.

It's Varied!

Each show includes a vast assortment of subjects, styles and media... from watercolors and acrylics to oils and collages; from plein air landscapes to lovely still lifes; and from figurative works to dramatic abstracts. Some are bold, some are soothing, some make a statement, and others invite discussion. There is something at every show that will appeal to you.
